Crissaegrim

Magic Item

Castlevania Edition

Crissaegrim

Weapon (longsword), very rare (requires attunement)

A legendary blade renowned for its impossible speed, the Crissaegrim is a sword capable of unleashing a storm of slashes in the blink of an eye. Rather than relying on brute force, the weapon allows its wielder to strike with such extraordinary speed that the blade appears to become a blur of steel.

The Crissaegrim is particularly prized by warriors who favor relentless offense, allowing them to overwhelm enemies with a flurry of strikes without sacrificing their mobility.

Magic Weapon. You gain a +2 bonus to attack and damage rolls made with this magic weapon. The Crissaegrim has the finesse property.

Blinding Speed. When you take the Attack action on your turn and make at least one attack with the Crissaegrim, you can make one additional attack with it as part of the same action. This additional attack does not add your ability modifier to its damage roll, unless that modifier is negative.
You can use this property only once per turn, and a number of times equal to your proficiency bonus, regaining all expended uses when you finish a long rest.

Elusive Assault. When a creature makes an opportunity attack against you, it has disadvantage on the

attack roll if you hit at least one creature with the Crissaegrim during your most recent turn.

Storm of Blades. As an action, you unleash a devastating flurry of nearly instantaneous strikes against a creature within the Crissaegrim's reach.

Make four melee weapon attacks with the Crissaegrim against the target.

Once you use Storm of Blades, you cannot use it again until you finish a long rest.
