DUALINK

Sandevistan

Magic Item

Cyberpunk 2077 Edition

Sandevistan

Cyberware (Speedware), legendary (requires installation)

A lattice of chrome threaded down the spine, humming just under hearing. When it fires, the world sinks into amber-slow light: bullets hang like dust and voices stretch into one low note. You move through it trailing afterimages, the only thing in the room still running at full speed.

Chrome Core. Speedware (Dexterity) · Capacity 5 · Overclock costs 1 Humanity + your Edgerunning score, +1 for this implant. Full rules in Chrome & Cyberpsychosis. Without that system, you can Overclock once per long rest.

Reflex Boost. While the Sandevistan is installed, you gain a +3 bonus to initiative rolls.

Time Dilation. As a bonus action, you activate the Sandevistan until the end of your next turn. While it's active:

- Your speed is doubled, and your movement doesn't provoke opportunity attacks.
- Other creatures can't take reactions in response to your movement or attacks.
- Your weapon attacks score a critical hit on a roll of 19 or 20.
- On each of your turns, you can take one additional action. It can only be used to take the Attack (one weapon attack only), Dash, Disengage, Hide, or Use an Object

action.

You can use this property a number of times equal to your proficiency bonus, regaining all expended uses when you finish a long rest.

Momentum. Once per turn, when you reduce a creature to 0 hit points with a weapon attack while Time Dilation is active, Time Dilation lasts until the end of your next turn instead. Time Dilation can't last longer than 1 minute in total.

Overclock: One More Second. When Time Dilation would end, you can Overclock the Sandevistan to make it last until the end of your next turn. You can also Overclock it to activate Time Dilation when you have no uses left.

Crash. When Time Dilation ends, the world snaps back to speed all at once. You can't take reactions until the start of your next turn.
